Application for Auszubildende*r Fachkraft für Lagerlogistik
Logistics & Supply Chain
Moenchengladbach
View job

Dear Hiring Manager,

Driving efficient logistics processes, optimizing supply chains, and reducing operational costs motivates me deeply. That is why your posted role in Logistics & Supply Chain speaks to me directly.

During my Master's in Logistics and Supply Chain Management at Technische Universität Riga, I focused on data-driven decision-making, process optimization, and cost structure analysis. This academic foundation has equipped me with the analytical skills necessary to tackle complex logistical challenges effectively.

My four years of experience in maritime operations have honed my abilities in precise coordination and structured work under time pressure. At Northern Marine Management, I successfully reduced equipment downtime by 20% and operational costs by 12% through strategic data analysis, demonstrating reliability and cross-interface collaboration.

Zalando's commitment to innovation in logistics and its focus on sustainability resonate with my professional values. I am particularly drawn to the opportunity to actively shape your logistics processes and contribute to operational efficiency and growth.

I am eager to bring my analytical thinking, eagerness to learn, and commitment to your team. I would be glad to discuss how I can contribute in a personal conversation.

Kind regards

Abhishek Yadav
