Application for Specialist - port logistics

Dear Hiring Manager,

With a strong foundation in logistics and supply chain management, I am eager to contribute to Rostocker Fracht- und Fischereihafen GmbH as a Specialist in port logistics. My experience in maritime operations has equipped me with the skills needed to enhance efficiency in warehousing and cargo handling. At Northern Marine Management, I successfully reduced equipment downtime by 20%, demonstrating my ability to apply data-driven solutions effectively.

I am particularly drawn to your company's commitment to sustainable logistics practices, which aligns with my values and expertise. My proficiency in SAP S/4HANA and Power BI will allow me to streamline operational processes and support your team in achieving cost reductions. Having lived in Berlin with a valid work permit, I am ready to relocate to Rostock and contribute to your logistics operations.

Thank you for considering my application. I look forward to the possibility of discussing how my background and skills can benefit your company.

Kind regards,

Abhishek Yadav
